

Corporate Resume

About Us

Caliber Control Systems Ltd. (Caliber) is an Alberta based company established in 2008. We are focused on the design, fabrication, installation, commissioning and maintenance of electrical, instrumentation and control systems for the oil, gas, petro-chemical, mining, and related resource industries. Adding a new division “Caliber Total Green” to provide services to the renewable energy sector.

Our track record of success is reflected in the ongoing relationships with clients that have been with us from the beginning. Our philosophy of growth with integrity along with a strong traditional work ethic and a focus on quality, safety, and innovation is how we will continue to build our client base going forward.

Caliber can manage projects and service contracts of all sizes with high efficiency and quality through a collaborative, client driven working relationship. Open communication, honesty, and trust are what allow us to exceed expectations and complete projects on schedule and budget. Caliber’s team of industry experts find solutions to fix your problems by bringing years of experience, excellent safety records, and a focus on innovation to all client partnerships.

At Caliber, our leadership team sets the bar for what we practice day in and day out. Our Core Focus is to Succeed, Improve, Grow in Business and in Life.

ELECTRICAL, INSTRUMENTATION, & AUTOMATION

Our Managers, Superintendents, and Technologists represent individuals with diverse and respected backgrounds who are continually building their skill sets through professional development. This experienced staff can provide construction, maintenance, commissioning, and start up solutions for problems or projects of any size.

Some examples of Caliber's past experiences include:

- E, I & C Field & Plant Maintenance Services
- Encana 15-31 Phase 2 Instrument Construction
- Harvest Bilbo GHT Construction
- Harvest Bilbo MCC/EHT/GHT Construction
- Encana 15-31 Phase 1 GHT Construction
- Encana 15-31 Phase 1 3rd Party Instrument Construction
- Enkern Site Maintenance & Construction

HEALTH & SAFETY

Caliber Control Systems is committed to protecting its employees, sub-contractors, property, visitors, and customers' assets from harm and loss in the workplace. Our safety team works closely with employees and clients to ensure compliance with all regulatory and site specific standards. Our goal is a healthy, injury free, productive working environment for our employees and those around us. Our commitment is to the safety of our employees and clients, listening and responding to any concerns they may have.

Caliber's qualified safety team provides support and guidance to all managers and employees to ensure adherence to Caliber's comprehensive HSE program. Our safety leaders at minimum hold NCSO (National Construction Safety Officer) designation.

Other ways Caliber keeps its "Site's" on safety:

- Maintains Certificate of Recognition (COR) with the Alberta Construction Safety Association.
- Member of the Partners in Injury Reduction Program - an active partner with Alberta Employment and Immigration and Workers' Compensation Board.
- SafetyLine 24/7 monitoring to keep our workers safe and comply with work alone legislation.
- External and internal audits are conducted to ensure successful execution and continual improvement of our HSE program
- Member of the following online safety registries: ISNetworld - "A" Rating, ComplyWorks

One of Caliber's key focuses is making sure everyone makes it home safe.

QUALITY ASSURANCE/QUALITY CONTROL

Caliber recognizes that in today's competitive market, comprehensive management systems are essential when providing quality, cost effective services to our client. The leadership group at Caliber is committed to providing products and services that meet or exceed regulatory requirements and contract specifications.

Caliber's QA/QC program outlines the Company's best business practices, better satisfying the requirements and expectations of its customers and improving overall work management. It is the policy of Caliber to adhere strictly to the quality control program and to ensure that this program and the requirements of our customers are met on each and every project we execute.

At Caliber, we will provide all employees with the training, instructions, and procedures to ensure assigned duties are performed correctly the first time. As with Safety, exceptional quality is a driver of how we want to do business and all levels of personnel are involved in the implementation and improvement of our program.

ENVIRONMENTAL MANAGEMENT

Caliber recognizes the importance of environmental awareness and protection in all areas of our business. We have adopted industry best practices as promoted by the Canadian Association of Petroleum Producers (CAPP) and strictly adhere to government legislation in all of our operations. Caliber operates in a way that identifies and mitigates environmental harm. We believe it is our duty to reduce our impact on the environment by practicing sustainable and reasonable environmental policies.

In support of this policy, we rely on team ideas and discussions to keep environmental stewardship front of mind. It is with these policies and principles that we are able to effectively mitigate our environmental impact.

Caliber ensures to make environmental efforts as we recycle, compost, reduce vehicle emissions, striving towards becoming a paperless organization, and saving energy. At Caliber, we choose to eliminate unnecessary waste.

Our focus is to provide unmatched customer service with an eye on environmental improvement and sustainable development. We will meet or exceed client policy at all times by limiting our environmental footprint.

SOCIAL RESPONSIBILITY

Recognizing the importance of being a good neighbour, Caliber is working towards making Community Social Responsibility an integral part of its core Business practices. Our management team is focused on leading by example to improve the planet and its people, small steps at a time. It doesn't matter how small the contribution may be, what matters is that we are making a difference.

Each one of Caliber's staff members value and are actively involved in a variety of different outlets that support the community through boards, associations, fundraisers, donations, and team sports.

Caliber believes we have a local and global responsibility to promote good corporate citizenship by being involved in social issues that have no impact on our profit margins. Therefore we continuously seek ways to make a positive difference on both social and environmental wellbeing. We also see the importance in today's society to be actively involved on various social media channels.
